

## Annual Report+ 2021-22

As we slowly returned to normalcy in the year gone by, it was thanks to the support of donors like you, that we were able to continue providing care to children undergoing treatment for cancer and staying at our centres.

Last year was also extra special as we turned 15! We were delighted to receive heartfelt messages and best wishes from our supporters and well-wishers throughout the year in celebration of this milestone.

We are happy to share our activities and financials for the last year in our Annual Report 2021-22.

## Meet Our Brave Judians

We believe that every child has the right to fulfil their aspirations, and for us, 'Once a St. Judes child is always a St. Judes child'.

Our vertical St. Judes for Life founded in the memory of Mrs. Rani Vicaji was started in keeping with this vision.

The programme ensures that children who have won the battle against cancer – who we proudly refer to as Judians – are able to fulfil their potential. They come from underprivileged families who had made great sacrifices to ensure that the child was treated successfully for cancer. St. Judes for Life (Founded in Memory of Mrs. Rani Vicaji) continues to provide support to Judians, to help them overcome the many challenges they face on the road to becoming self-reliant and independent.

Meet two such Judians – Shiv More and Sadia Bano (Nazia) – as they speak about the challenges they faced after recovering from cancer, and how St. Judes for Life (Founded in Memory of Mrs. Rani Vicaji) has been there for them every step of the way.

## Run Against Childhood Cancer

The Mumbai Marathon is back after two years!

Support us at the Mumbai Marathon on January 15th, 2023 to raise funds for needy children battling cancer. Funds raised will help provide them and their families with clean, cost-free accommodation and holistic care during their cancer treatment.

Help spread the word

## Stories of Hope

Pradip Then

Pradip Now

Seventeen-year-old **Pradip Pal** passed his Higher Secondary Examination in first division from the West Bengal Board. He underwent treatment for Hodgkin Lymphoma at Tata Medical Center, Kolkata and after completing chemotherapy went back home. He now comes for his routine check-ups.

Pradip first came to our **Premashraya Centre** in Kolkata in 2018 with his parents. His father is a farmer and mother a homemaker, and they were very thankful to have found a place like St. Jude's to stay in a big city.

Pradip not just fought courageously against cancer but also worked equally hard to keep-up with school work he missed during his treatment. He studied with our teachers and did his best to learn as much as he could. After returning home, he gave his all to his studies and passed with flying colours in all his exams. We wish him a bright future ahead.

Now more than ever, our cancer warriors need your help to support their battle against child cancer
